AT&T 3G MicroCell Firewall and Router Settings for ...

Amazingly enough, the AT&T MicroCell or AT&T Femtocell was only designed to handle 3G data speeds. For this reason alone, those with an existing AT&T MicroCell will only be able to use their devices up until AT&T discontinues its support of 3G—which is anticipated to happen by 2021. Despite its effectiveness for improving cell coverage in dead zone areas, the AT&T MicroCell only worked for AT&T subscribers.

3G MicroCell™ | AT&T Community Forums

Is the 3G light blinking green or red? If the light is blinking green, you have lost connectivity to the AT&T Mobility Servers. If the light is blinking red, that could indicate either a hardware failure or an update that didn't reset properly and the MicroCell "thinks" it is a hardware failure.Your internet can be fine but something is preventing the MicroCell from connecting.
