Braces Tips and Tricks Prepare a kit with a toothbrush, toothpaste, and floss (to use between meals), wax, and lip balm (for dry lips). Carry this with you at all times. If you have hooks, wear your rubber bands all of the time (except for when you're brushing your teeth).

Other Tips & Tricks for Living with Braces - Oral-B

Being a teen or pre-teen with braces can be even harder. If you're trying to help your kid deal with their new braces, here are some helpful perspectives from parents who have been through the process before. Dealing with a less compliant kid “Teaching my son to take proper care of his braces took a lot of patience. Wires frequently snapped.

Advice from Parents on Braces - Oral-B

Floss with braces. Flossing with braces can be a challenge. To start, gently feed the short end of the floss through the uppermost portion of your teeth, near your gums and the main arch of your braces. Saw back and forth to work the floss between your two teeth. Then, repeat between all the other gaps between your teeth.

3 Ways to Deal with Braces - wikiHow

Braces are gracing the smiles of kids everywhere, especially in middle and high school. Though braces can be beneficial at any age, the most efficient time to attempt to straighten teeth is between ages 10 and 14 because the head and mouth are still growing, and many of the permanent teeth have already developed for this age group. 1 Since braces serve to correct crooked or crowded teeth ...

Coping with braces - Dental Solutions

Try a new toothpaste. There are some toothpastes that are designed for sensitive teeth. Brushing your teeth can be one of the most uncomfortable parts of brace pain. These pastes, together with a more gentle brushing strategy, can go a long way to making it more livable.

How to Deal With Brace Pain: 10 Steps ... - wikihow.health

Stick to soft foods, like mashed potatoes or yogurt, until your discomfort goes away. Colder drinks, like a smoothie or chilled juice, may help to soothe pain. Hard or crunchy foods, like popcorn, pretzels, or chips, can break and become lodged under your block braces.
