Expressive Therapies Continuum: A Framework for Using Art ...

The expressive therapies continuum is a model of creative functioning used in the field of art therapy that is applicable to creative processes both within and outside of an expressive therapeutic setting. The concept was initially proposed and published in 1978 by art therapists Sandra Kagin and Vija Lusebrink, who based the continuum on existing models of human development and information processing. This schematic model serves to describe and assess an individual's level of creative functioni

Expressive therapies continuum - Wikipedia

Because art therapy as a field tends to remain within a well-circumscribed silo of specific visual methods, the ETC has not yet fully embraced what it truly is — a framework for “expressive...

Expressive Therapies Continuum: Three-Part Healing Harmony ...

The Expressive Therapies Continuum (ETC) provides a theoretical model for art-based assessments and applications of media in art therapy. The three levels of the ETC (Kinesthetic/ Sensory, Perceptual/Affective, and Cognitive/Symbolic) appear to reflect different functions and structures in the brain that process visual and affective information.
