The FDA suggests that you use a control solution: 1. Every time you open a new container of test strips 2.

### **Should You Use the Control Solution to Check Your Meter ...**

Control solution is essentially “fake blood” that contains a known level of glucose. It is applied to a test strip just like a normal blood sample, and the resulting reading lets you know how well that test strip and your meter are working. But as a recent survey shows, many people with diabetes don't use control solution, and many doctors don't recommend it.
