Private Life Of the Industrial Revolution: Social Change ...

The Industrial Revolution was a major event in history. It may be defined as the process of change from an agrarian and handicraft economy to one dominated by industry and machine manufacturing. The revolution began in Great Britain in the mid-18th century and spread to other European countries, including Belgium, France and Germany, and to the United States.

10 Interesting Facts About The Industrial Revolution ...

The documentary explores two fascinating questions - why did the industrial revolution happen when it did, and why did it happen in Britain? Professor Black discusses the reasons behind this transformation - from Britain's coal reserves, which gave it a seemingly inexhaustible source of power, to the ascendancy of political liberalism, with engineers and industrialists able to meet and share ...
